Chaise

This gorgeous button tufted chaise by Randolph & Hein is a perfect example of the elegant furnishings you'll find here. It was purchased through a designer at the Pacific Design Center, and once placed in the home, found that the scale was wrong – too bad, you can't return a custom ordered piece like this. Would you believe they paid \$8000 for it? If you hurry, you can snatch it up for yourself @ \$3500.

French Settee

The upholstery is new, but the springs, wood frame and finish are all original. One of our first customers brought this to us. She paid \$2000 back in 1984 for it and re-upholstered it for another \$1000. Since 10 years we've had many great French Antiques, but this one is flawless!

How I can find you such beautiful fine furniture at such bargains?

I've spent the last 30 years of my life in the furniture business. Wholesale, manufacturing, design, and retail. I started this business because I hated seeing great furniture being wasted and disposed of. Furniture lasts forever, and just because one person is finished with it, doesn't mean that it's worthless and should be destroyed. My store is a different experience than any other furniture store you've ever visited. We get new items every day, and sell almost 20% of our inventory each week. In fact, don't be surprised if some or all of the items above are already sold. That's what we offer here – upscale, beautiful, pre-owned furnishings – for less than half – (sometimes a lot less) of what they sold for when new. Each piece is hand selected, and priced by me. I've already done the shopping for you

– you can't make a mistake!

Jewelry

We also sell jewelry... Just last week, we picked up almost 1000 pieces of jewelry from a private collector (I'm glad I'm not married to her).

- 50 strands of pearls from **\$50 - \$150** ea.
- 500 pieces of costume jewelry, **\$35 - \$250** ea.
- 300+ pieces of fine jewelry.

There is no way that even a fraction of this jewelry was ever worn!
